Education

Thakur College of Engineering and Technology

Bachelor of Technology in Artificial Intelligence and Data Science (CGPA: 8.15)

June 2022 – May 2026

Mumbai, India

Gurukul Vidyapeeth

Higher Secondary Education (72%)

June 2021 – May 2022

Mumbai, India

Experience

Infosys Limited - Winternship

Software Engineer Intern

Dec 2025 – April 2026

Mysore, India

- Designed and developed **RESTful APIs** using **C#** and **ASP.NET Core Web API**, implementing **Repository Pattern** and **Dependency Injection** for scalable enterprise solutions.
- Built **Angular 16+** single-page applications with **RxJS** for asynchronous data handling, enhancing UI responsiveness and user experience.
- Worked with **SQL Server** and **MySQL** databases using **Entity Framework Core**, optimizing queries for faster data retrieval.
- Followed **Agile/Scrum** methodology and **Git-based workflows**, including code reviews and unit testing, improving team efficiency and software quality.

GetShift Communes

Full Stack Developer Intern

Dec 2024 – March 2025

Mumbai, India

- Developed and maintained web applications using the **MERN stack**, improving workflow automation and front-end responsiveness.
- Implemented RESTful APIs and integrated dynamic UI features, reducing manual intervention and improving operational efficiency.
- Deployed updates using Git and hosted on **AWS EC2**, enhancing system scalability and uptime by 20%.
- Used **MongoDB** for data modeling and CRUD operations, ensuring seamless synchronization between frontend and backend.

Projects

SkillCircle | React.js, Node.js, Express, MongoDB, JWT, Cloudflare

July 2025

- Built a peer-to-peer mentorship platform with a **credit-based system** for session booking, enabling scalable and self-sustaining learning solutions.
- Integrated real-time meetings, chat, and session approvals, streamlining operations and improving user engagement by 25%.
- Engineered secure, modular **RESTful APIs** and optimized MongoDB performance through indexing and aggregation.
- Implemented security best practices (**HTTPS**, **JWT lifecycle management**, **input sanitization**) for enterprise-grade application compliance.
- Enabled secure video uploads and content sharing using **Multer and MongoDB**, enhancing mentor-to-mentee knowledge transfer.

Technical Skills

Languages: Java, Python, C#, SQL

Frameworks: HTML, CSS, JavaScript, ReactJS, Node.js, Express.js, Angular

Tools & Cloud: AWS (EC2), Git, Docker concepts, CI/CD basics

Databases: MongoDB, MySQL, SQL Server

Concepts: Data Structures, Algorithms, DBMS, REST API design, Agile/Scrum, Full-Stack development, Security best practices

Certifications

- Programming and OOP using Java – Infosys, 2026
- Database Management System (HSQL) – Infosys, 2026
- Power BI – Udemy, 2023
- Python 3.4.3 – IIT Bombay, 2023
